Skills

Profile

Experienced in Engine and Gameplay Programming. Adept in developing video games, adding features and performing various management tasks. Seeking a position in which my creative skills and programming knowledge can be used as an asset.

Employment History

Lead Game Developer at [MPASS](#) , Athens

SEPTEMBER 2022 — PRESENT

Designed and developed **engaging experiences and games** for Gamification and Engagement platforms.

- Led the design, development, and successful commercial launch of diverse gaming projects, e.g., match 3, instant-win lucky games, whack-a-mole
- Directed a compact team, ensuring timely delivery of high-quality products
- Tailored frontend solutions to precisely match MPASS's specifications
- Optimized web-game performance for minimal memory usage and disk footprint
- Researched and developed games and experiences with Meta VR and Unity
- Designed part of the architecture in MPASS's platforms that allows games from 3rd party vendors

Most of the development is done with **Unity** game engine and **C#** as well as using **Javascript** and **Vue.js** for our web components.

Freelance Game Developer at MPASS , Athens

JULY 2022 — JULY 2022

Hired as a freelance Game Developer to create a prototype for a **custom low end platform** that makes use of WebGL API for rendering.

- Designed a prototype game for a low end custom platform
- Achieved optimization for loading and playing from an Apache Web server
- Communicated and collaborated with the Marketing Team to ensure the company's vision.
- Collaborated with the Backend Development Team to ensure the game loads from their Web server
- Provided proper documentation and support for scaled implementation

Freelance Game Developer

JANUARY 2015 — JULY 2022

As a Freelancer I **built a clientele** and implemented features and games for **mobile phones** and **Windows** systems.

- Designed and optimized games for platforms with low end capabilities
- Developed various gameplay mechanics and features.
- Communicated with clients to ensure their vision
- Provided proper documentation and support for scaled implementation

Co-Founder | Lead Programmer at Unicorn Studios

JANUARY 2012 — JANUARY 2015

As a Lead Developer I **managed** a team of developers **worldwide** and achieved communication and proper scheduling. Aside managing team members and making sure everyone had a part in development I **innovated solutions** and came up with answers to a lot of problems we faced during development.

- Designed and developed several core components and game systems for "[The Midnight Game](#)"
- Developed core functionality of "[Horizon](#)"
- Developed gameplay for "[Enthrall](#)"
- Developed gameplay for "[Balance Me Senpai](#)"

Languages

English

Greek

German

Hobbies

- Playing Roguelikes and DnD
- Watching Series and Movies
- Listening to Books
- Basketball
- Prototyping Games

Gameplay Programmer at Divinity Studios,

JANUARY 2011 — JANUARY 2012

- Developed Gameplay Mechanics for title "[Six-Eight-Two](#)"
- Participated in the Game Design process

Education

University of Aegean, Information & Communication Systems Engineering, Greece

2014 — PRESENT

Thesis Title : [Deep Reinforcement Learning for Vehicle Control in a Variable Virtual Environment](#) Grade (10/10)

Supervisor : [Yannis Charalabidis](#)

Note: I will graduate in October 2024 after passing the remaining three exams. Please note that there was a gap in my studies due to financial and medical issues as well as the impact of COVID-19.

Graduate, 3rd High School of Rhodes, Greece

SEPTEMBER 2011 — JUNE 2014

Achievements

Game Jams

- Achieved 1st place in the Hellenic Game Jam 2015 with the game "[And so, Here We Are](#)"
- Ranked 4th in the Hellenic Game Jam 2014 with the game "[Past-10](#)"
- Participated in Global Jam 2015 with the game "[Untitled](#)"

Hackathon , Samos

First position in Hackathon. Developed a blockchain wallet app for various cryptocurrencies.
